EXPERIENCE

Planned Break — Career Transition — **Martinsburg, WV**
September 2022 – Current

- Completed the following courses:
  - Harvard CS50: X, Python, Web Development, SQL, Cybersecurity
  - Various Udemy, Coursera, Codecademy, etc. courses related to backend, frontend, and web development
- Projects:
  - Created a NYT Wordle-like command line application. *In the process of locally developing a frontend interface.*
  - Developed an API to access book and personal circulation data from the Libby application.
  - Website creation (leighkovar.com) – *currently in development*
  - Creating a database of sunscreens and all associated data to help users determine based on experience and personal knowledge of skin which sunscreen is right for them - *currently in development*

Infinitive — Principal Risk Analyst — **Ashburn, VA**
September 2021 – September 2022

- Executed transformational initiatives for critical business processes (cloud operations data quality management and product lifecycle management) and Cyber SIEM environments
- Performed comprehensive data analysis of current processes, risks, and controls to aid in C-Suite-level decision making
- Provided process improvement points and implementation plans in Cyber and Cloud (AWS, GCP, and Azure) environments
- Modified, created, and implemented new processes, risks, and controls in high risk areas of business and technology
- Created reports via spreadsheets, visualizations, and PowerPoints to document status and key metrics for simultaneous engagements
- Contributed heavily to internal business initiatives via recruiting, mentoring, competency training, and large event planning

Ernst & Young, LLP — Technology Risk Consultant — **Dallas, TX**
October 2019 – September 2021

- Consulted with technology-based organizations and service organizations on best-practice methodologies through the assessment of client's security, availability, processing integrity, confidentiality, and privacy of customer data and financially significant information
- Incorporated business intelligence and analysis to drive efficiencies and provide more timely and comprehensive risk insights
- Managed responsibilities, work expectations, and served as a senior point-of-contact for interns, staff, and off-shore teams
- Collaborated with corporate management to establish close relationships and assess, reduce, mitigate, and manage risk
- Performed analysis and documentation of business, financial, and technical processes (i.e., technology, governance, risk and compliance); and supported the planning, fieldwork, and performance management of various engagements at a time

Jerry Love CPA, LLC — Tax Intern — **Abilene, TX**
January 2019 – August 2019

- Participated in the inner workings of a tax-oriented business, including administrative/office duties and client engagement
- Followed tax returns through each step in the preparation process for tax years 2010 - 2018
- Supported the firm in various aspects of the business, i.e., tax return delivery, client engagement, payroll delivery, audit reviews, etc.

Abilene Christian University — Student Enrollment and Recruiting Assistant — **Abilene, TX**
August 2017 – November 2018

- Collected, organized, and analyzed enrollment data for data analytics research related to recruitment
- Provided proactive communication to and tracked engagements with prospective, incoming, and current students
- Led, organized, and supported campus visits, tours, and departmental visits and promotional business and university-wide events
